The Riverside County Department of Environmental Health, Solid Waste Management Program, acting as the Local Enforcement Agency (LEA) is certified by the Department of Resources Recycling and Recovery (CalRecycle) to enforce state laws and regulations at solid waste sites within its jurisdiction. The Edom Hill Transfer Station operates under a Solid Waste Facility Permit issued by the LEA. The operator has filed an application for a Report of Facility Information (RFI) amendment with the LEA. The RFI describes the design and operation of the facility.

As required by 27 CCR, Section 21660.1, the LEA is distributing this notice for the purpose of noticing its acceptance of the amendments to the RFI for the Edom Hill Transfer Station.

Description of Project

The RFI amendment addresses the following changes:

1. Amend the location for active composting.
2. Change from static pile composting to windrow composting.

LEA's Determination

An application for a RFI amendment was received by the LEA on September 3, 2015. Pursuant to 27 CCR, Section 21665(c), the LEA reviewed the application and determined that the proposed change is consistent with all adopted CEQA documents, is consistent with State Minimum Standards and does not conflict with the terms and conditions of the current SWFP. The LEA approved the RFI amendments on September 30, 2015.

Where to Get Additional Information

A copy of the RFI amendment and permit application is available for public review by appointment in the LEA office located at 47950 Arabia St. Ste A. Indio, CA 92201
