

# Hand Wash Rap

Pause, And stay  
cautious

Pause, You gotta  
watch it

Pause, And stay  
cautious

If washing your hands isn't part of the plan  
Germs will stick to your hands, Like peanut butter and jam  
Take a minute and think, It's just a simple thing  
Sanitizer and soap, Warm water from the sink  
Not a stroke of brilliance, But will prevent illness, Infecting millions  
Grandparents to children, War veterans as well as civilians  
Heroes and their villains, Anybody, Even dentists doing fillings  
Know this as a daily dealing, Whether its cards or cash, Your fingers need a bath  
Money is good, But bacteria is bad, It's really simple  
Just do the math and add, Even athletes don't want to cough at track meets  
Wash your hands, And you'll forget what bad means  
Use the soap by handfuls, Lead by example  
Don't be a defenseless damsel

Pause, And stay  
cautious

Pause, You gotta  
watch it

Pause, And stay  
cautious
