APPROVED BLOODBORNE PATHOGENS EXPOSURE CONTROL TRAINING LIST

The California Safe Body Art Act requires all body art practitioners to complete an annual Bloodborne Pathogens (BBP) Exposure Control Training. Riverside County does not currently have an approval process for BBP training. The following is a list of approved BBP training schools from neighboring LEAs. This list is not an endorsement of any company by the County of Riverside and is merely provided as a reference for finding a testing company and may change without notice. Some schools offer multiple courses, please ensure that the course you take is approved for BBP training. Contact the schools directly for course information.
