(888)722-4234 • RIVCOEH.ORG

## District Environmental Services WILL-SERVE REQUIREMENTS

TO: Plan Check Customer  
FROM: Riverside County Dept. of Environmental Health, Food and Pool Construction Program  
SUBJECT: Will-Serve Requirements

Please be advised that utility clearance letter(s) are required from the Water District, Sewer District, and Industrial Waste Section/Source Control Division (grease interceptor), for your food facility. It is your responsibility to ensure that these clearances are secured. The utility clearances correspond with section C, "Utilities" on the Application for Review of Food Establishment Construction/Remodel Plans form which you signed and submitted with your plans. If your project does not require a grease interceptor, an exemption letter from the Industrial Waste Section/Source Control Division is required. It is your responsibility to secure the utilities for your project and provide this Department with the correct information for plan check processing.

**\*\* PLANS WILL NOT BE RELEASED UNTIL THESE CLEARANCE LETTERS ARE RECEIVED AND APPROVED BY THIS DEPARTMENT \*\***

It is imperative that the timely receipt of these clearance letters occurs so as to not impede the ultimate release of your plans to you.

Individuals submitting plans to this Department for the "Remodel of an Existing Food Establishment" need only to submit the clearance letter from the Industrial Waste District (grease interceptor).
